

YOU CAN BE HEARD!

A real estate group from Manhattan is scheming to radically impact our neighborhood. They plan to build the largest high density apartment complex ever crammed into Lawrence at 2111 E 15th Street. While they have built ugly apartment complexes in cities around the country, they've never built one this large, and they've never crammed one into a residential neighborhood like they're trying to do here. They have filed a preliminary site plan describing them as "3 story apartments".

On this **Thursday** evening, **September 21st** you can join us at 7:00 to discuss the project, and the ways your voice can be heard in the City's planning process. We'll meet at the East Lawrence Community Center, 1245 E. 15th Street.

If you are concerned, but can't attend the meeting, please email us at: paradigm@ixks.com and we will keep you updated on the efforts underway.

A recent article in the Lawrence Times provides additional details here:
